

Delphi North America Launches Largest Parts Announcement of 2024

- Delphi adds 420 parts to its main portfolio of Fuel Management, Steering and Suspension, and Vehicle Electronics parts
- Sparta, Delphi's specialty fuel brand, reveals 1 new part

Delphi, a brand of PHINIA Inc., reveals 421 parts in its fourth quarter announcement, covering more than 346 million vehicles in operation (VIO) across the United States and Canada.

Delphi's Steering and Suspension product line announced 171 parts for more than 153 million VIO. This includes 53 newly designed and improved ball joints with greasability and knurling for easier installation and greater durability.

The Vehicle Electronics line boasts its largest announcement of the year with 177 parts for more than 171 million VIO. Debuting this quarter are six Nitrogen Oxide (NOx) sensors, the newest addition to Delphi's portfolio in North America.

"It's been an exciting quarter for our team not only in terms of the sheer number of parts launched, but also with the debut of our new enhanced steering parts and NOx sensors," said Russ Stebbins, Vice President and General Manager (VPGM) of North America Aftermarket. "We're looking forward to continuing this momentum into 2025 and beyond to ensure we meet the needs of both the repair and market environments."

Delphi's Fuel Management line adds 72 new parts covering more than 20 million VIO. The parts announced include a variety of module and hanger assemblies, sending units, transfer units, and more.

Sparta, Delphi's specialty fuel line for earlier model and high-mileage vehicles, introduced one electric fuel pump for a variety of applications.

About Delphi

Delphi, a brand of PHINIA Inc., is a global Aftermarket leader championing next-generation talent, first-to-market innovations, market-leading products, and smart service solutions for a better and more connected today and tomorrow. We are committed to developing solutions that prepare technicians all over the world to help vehicles go cleaner, better, further, right through their lives.

About PHINIA

PHINIA is an independent, market-leading, premium solutions and components provider, with over 100 years of manufacturing expertise and industry relationships and a strong brand portfolio that includes DELPHI®, DELCO REMY® and HARTRIDGE™. With over 13,000 employees across 44 locations in 20 countries, PHINIA is headquartered in Auburn Hills, Michigan, USA.

Across commercial vehicles and industrial applications (heavy-duty and medium-duty trucks, off-highway construction, marine, aviation, and agricultural), and light vehicles (passenger cars, trucks, vans and sport-utility), we develop fuel systems, electrical systems, and aftermarket solutions designed to keep combustion engines operating at peak performance, while at the same time investing in advanced technologies to unlock the potential of alternative fuels.

Through our fuel systems business, we are investing in alternative fuel technologies that offer the potential for enhanced sustainability. Fuels like hydrogen, ethanol, and natural gas have the ability to dramatically reduce carbon emissions, and we will continue to explore and serve as leaders in the pursuit of zero- and lower-carbon solutions in the transportation and power generation industries.

By providing what the market needs today to become more efficient and sustainable, while also developing innovative products and solutions to contribute to lower carbon mobility, we are the partner of choice for a diverse array of customers – powering our shared journey toward a cleaner tomorrow.
