

PHINIA Bolsters North America Team with New Additions

Auburn Hills, Mich. (November 22, 2024) – PHINIA Inc. has announced the addition of three team members to its North America team.

Hailey Long will serve as the Manager for the North America Category Management, Pricing, and Catalog teams. Long has been with the company since 2015 in a variety of functions including Sales, Category, and Demand Planning.

Ande Schultz joins the North America team as the Regional Sales Manager for the Warehouse Distributor (WD) Channel. Schultz has experience combining sales, marketing, and business development to develop revenue growth in highly competitive business markets.

Stacy Swedenburg also joins the North America team as the Regional Sales and Service Manager for the southwest United States. Swedenburg comes to PHINIA with a vast background in the industry, spending 30 years of his career at Tenneco in an Area Sales Manager role with Heavy-Duty Ride Control and Emissions Control.

“We’re continuing to build our team in North America as we look ahead to 2025,” said Russ Stebbins, General Manager of North America Aftermarket. “Hailey, Ande, and Stacy are all incredibly passionate individuals that possess immense knowledge in their respective areas. We’re glad to welcome them to the North America team.”

About PHINIA

PHINIA is an independent, market-leading, premium solutions and components provider, with over 100 years of manufacturing expertise and industry relationships and a strong brand portfolio that includes DELPHI®, DELCO REMY® and HARTRIDGE™. With over 13,000 employees across 44 locations in 20 countries, PHINIA is headquartered in Auburn Hills, Michigan, USA.

Across commercial vehicles and industrial applications (heavy-duty and medium-duty trucks, off-highway construction, marine, aviation, and agricultural), and light vehicles (passenger cars, trucks, vans and sport-utility), we develop fuel systems, electrical systems, and aftermarket solutions designed to keep combustion engines operating at peak performance, while at the same time investing in advanced technologies to unlock the potential of alternative fuels.

Through our fuel systems business, we are investing in alternative fuel technologies that offer the potential for enhanced sustainability. Fuels like hydrogen, ethanol, and natural gas have the ability to dramatically reduce carbon emissions, and we will continue to explore and serve as leaders in the pursuit of zero- and lower-carbon solutions in the transportation and power generation industries.

By providing what the market needs today to become more efficient and sustainable, while also developing innovative products and solutions to contribute to lower carbon mobility, we are the partner of choice for a diverse array of customers – powering our shared journey toward a cleaner tomorrow.
