

PHINIA Receives 2024 Supplier Partnership Award from NEXUS Automotive

Auburn Hills, Mich. (Feb 17, 2025) – PHINIA, a global leader in premium fuel systems, electrical systems, and aftermarket products, was awarded the 2024 Supplier Partnership Award by NEXUS Automotive International at the Heavy Duty Aftermarket Week (HDAW) show in Grapevine, Texas.

This award, established three years ago, recognizes suppliers excelling in program support, growth acceleration, professionalism, and partnership. Eligible suppliers must meet criteria across multiple areas, including cooperation and raising the bar, at the NEXUS and local group/distributor levels. This prestigious recognition highlights suppliers who foster long-term, successful partnerships and demonstrate exceptional performance.

“We’re pleased to present this award to PHINIA,” said Joe Stephan, Vice President of Sales and Business Development for NEXUS North America. “Over the past year, PHINIA has infused talented, well-respected resources into their Aftermarket commercial organization and has demonstrated the exemplary standards that our members have come to expect of our global supplier partners. We look forward to building upon this valued partnership for years to come.”

“We couldn’t be more thrilled,” said Dave Illes, Senior Director of Aftermarket Sales, Marketing and Training for PHINIA North America. “This award is a testament to all the hard work and commitment of our team members in delivering the best possible experiences for our partners. Thank you as well to NEXUS for recognizing our efforts and we look forward to strengthening our partnership.”

About PHINIA

PHINIA is an independent, market-leading, premium solutions and components provider with over 100 years of manufacturing expertise and industry relationships, with a strong brand portfolio that includes DELPHI®, DELCO REMY® and HARTRIDGE™. With over 12,500 employees across 43 locations in 20 countries, PHINIA is headquartered in Auburn Hills, Michigan, USA.

Across commercial vehicles and industrial applications (medium-duty and heavy-duty trucks, buses and other off-highway construction, marine, agricultural and industrial applications), light commercial vehicles (vans and trucks) and light passenger vehicles (passenger cars and sport-utility vehicles), we develop fuel systems, electrical systems and aftermarket solutions designed to keep combustion engines operating at peak performance, while at the same time investing in advanced technologies to unlock the potential of alternative fuels.

By providing what the market needs today to become more efficient and sustainable, while also developing innovative products and solutions to contribute to lower carbon mobility, we are the partner of choice for a diverse array of customers – powering our shared journey toward a cleaner tomorrow.
