THE COMPLETE AFTERMARKET SOLUTION

WE'VE GOT YOUR BACK...

In a rapidly evolving vehicle technology landscape, it's vital for technicians to stay at the cutting edge. **Delphi's Workshop Solutions** empower you with the **latest tools** and **knowledge** needed to deliver **unparalleled service**.

Our offerings include **advanced diagnostic equipment**, **comprehensive training programs**, **extensive cataloguing**, and **up-to-date technical information**, ensuring you have everything required to confidently **tackle modern vehicle repair challenges**.

Discover **why Delphi** should be your go-to for **workshop excellence** and experience the difference that **industry-leading support** and **innovation** can make in your daily operations.

COMPLETE PRODUCT SOLUTION WORKSHOP SOLUTIONS

TRAINING

Elevate your skills, anywhere, anytime!

- Face to face trainings
- eLearning platform
- Based on real world experience, scenarios, diagnostics procedures and Delphi OEM knowledge

DIAGNOSTICS

Advanced hardware, extensive software and integrated technical data!

- Comprehensive coverage across Car, LCV and Heavy Duty applications accessible with the same hardware
- Advanced functionalities such as Security Gateway, Pass-through, System scan, ADAS calibration and more.
- Integrated technical information for smooth operations
- Multiple software updates per year

CATALOGUING EXCELLENCE

Cataloguing excellence to guide you to the perfect part every time!

- Enhanced x-reference database
- 360° images for ease of identification
- Premiere Tecdoc® Data supplier

HOW-TO VIDEOS & ARTICLES

Master every installation with content created by technicians, for technicians!

- One new video available every Thursday
- One new article available every Monday
- Staying up-to-date on industry trends, best practices, and troubleshooting tips

TECHNICAL DATA

Comprehensive technical information, always a step ahead!

- Available as standalone package or integrated into DS software
- Delphi proprietary OE and all-makes data
- Available for car, LCV and heavy duty
- OE TSB's, known issues, and recalls

At Delphi, we are committed to **enhancing** the **on-the-job experience** for **technicians**. The **DS Hub** is a **centralized digital ecosystem** designed to bring all the **tools** and **resources** Delphi offers under one roof, to access **diagnostic softwares**, **technical information**, **eLearning**, **parts catalogues** and **how-to resources** from **one convenient place**.

ALL IN THE HUB

THE NEW DS-HUB FROM DELPHI: THE ESSENTIAL SOLUTION FOR WORKSHOPS

Scan the QR to find out more!

IN THEIR WORDS: THE VALUE OF DELPHI TRAINING

*"At Delphi they are **passionate** about what they do, they are **knowledgeable** but most of all they are **'people people'**... they will follow through on **promises**, they do what they say they will do, and they do it with a **quality product**. That's why **we love working with Delphi**"*

Matt Cleevly (Company Director, Cleevly Motors)

"Delphi will work in partnership with us, not just as a training provider"

"We are in the process of trialling a Hydrogen vehicle qualification, that's brand new technology, nobody else is doing that so they are at the forefront of technology"

Neal Rhodes (Head of Technical Training Apprenticeships, Protyre)

WORKSHOP SOLUTIONS TRAINING

At Delphi, we're passionate about **empowering technicians** through **knowledge** and **continuous learning**. By connecting with **4,000 technicians**, we've gained valuable insights into the unique challenges and daily processes within workshops. This allows us to deliver **training** that's not just tailored—**it's transformative**, whether **online** or **face-to-face**, addressing the **real-world needs** of garages.

Our **eLearning platform**, now available in **six European languages**, opens the door to **essential training** for technicians across the continent. Coupled with our **dynamic face-to-face sessions**, we're thrilled to have provided **over 1,500 technicians** with more than **10,000 hours** of specialized training in 2023 alone.

At Delphi, we're not just offering training; **we're driving the future of automotive repair**. Visit the Delphi Academy E-learning platform to see for yourself!

FREE-TO-VIEW

How-To video content published on free to view channels such as YouTube, and the Masters of Motion hub.

E-LEARNING

Powerful subscription-based platform covering 200+ training modules, extensive video content, a simulator, and much more.

FACE-TO-FACE

Training in a Delphi technical centre, combining theory and practical on-vehicle courses.

Created by technicians, for technicians.

ADVANCED CAPABILITIES Intuitive features and integrated advanced functionalities such as security gateway unlock, pass-through, full system scan, ADAS calibrations and much more!

LEADING MULTI-SECTOR COVERAGE Same hardware for passenger cars, LCV, truck, trailers and bus applications. One tool, multiple options.

TECHNICAL INFORMATION Combination of essential maintenance and repair data...everything you need at your fingertips!

Software version:
2024.00

ADVANCED CAPABILITIES

UNLOCK YOUR FULL POTENTIAL

Security Gateway solution to service security protected vehicles

Pass-through J2534 compliant for quick and easy access to OEM data

Integrated technical information, everything you need at your fingertips

Full system scan functionality

ADAS calibrations procedures included in the software

Integrated DoIP (no adaptor needed)

Calibrations are now even easier to access with **Delphi's new 'Quick find' feature**

...and much more!

WORKSHOP SOLUTIONS

DIAGNOSTICS

Delphi stands at the pinnacle of **diagnostic technology**. Our **innovative hardware** caters to both **CAR** and **HD** segments, ensuring **comprehensive coverage**. Frequent **software updates** continually enhance our application database, introduce ground breaking features, and refine the **user interface**.

Our **state-of-the-art BlueTech VCI** is the **ultimate solution** for **advanced diagnostics**, **ADAS calibrations**, **pass-through**, and more. Its **integrated security gateway** unlocks seamless operations across **FCA**, **VAG**, **Iveco**, **Mercedes**, **Smart**, **Volvo**, and **Polestar**.

ADAS CALIBRATION

FUTURE DRIVEN TECHNOLOGY

Designed to provide **safety** and **comfort** while driving, **Advanced Driver Assistance Systems (ADAS)** are becoming increasingly common in today's latest generation vehicles.

Following any repair work on the **steering and suspension system**, it is critical to conduct an **ADAS re-calibration** in order to avoid issues such as **poor handling**, **irregular tyre wear**, an **uncomfortable ride**, and **reduced vehicle safety**. Use Delphi's new Quick find feature to know when each ADAS system needs calibrating.

CHECK OUT HOW-TO RECALIBRATE ADAS RADARS WITH THE **DELPHI EXPERTS HERE BY VISITING THE MASTERS OF MOTION HUB NOW!**

Easy storage

save storage space with removable half-bars

Double-sided target panels (OEM specification)

save space and money in the workshop

Adjustable equipment

designed to cover even the largest vehicles

Accurate positioning

calibrate the ADAS sensor with confidence

Single person operation

operate the equipment with only one pair of hands

Parallelism adjustment

fast, easy and accurate cross-bar adjustments

Adjustable wheel clamps with self-centering systems

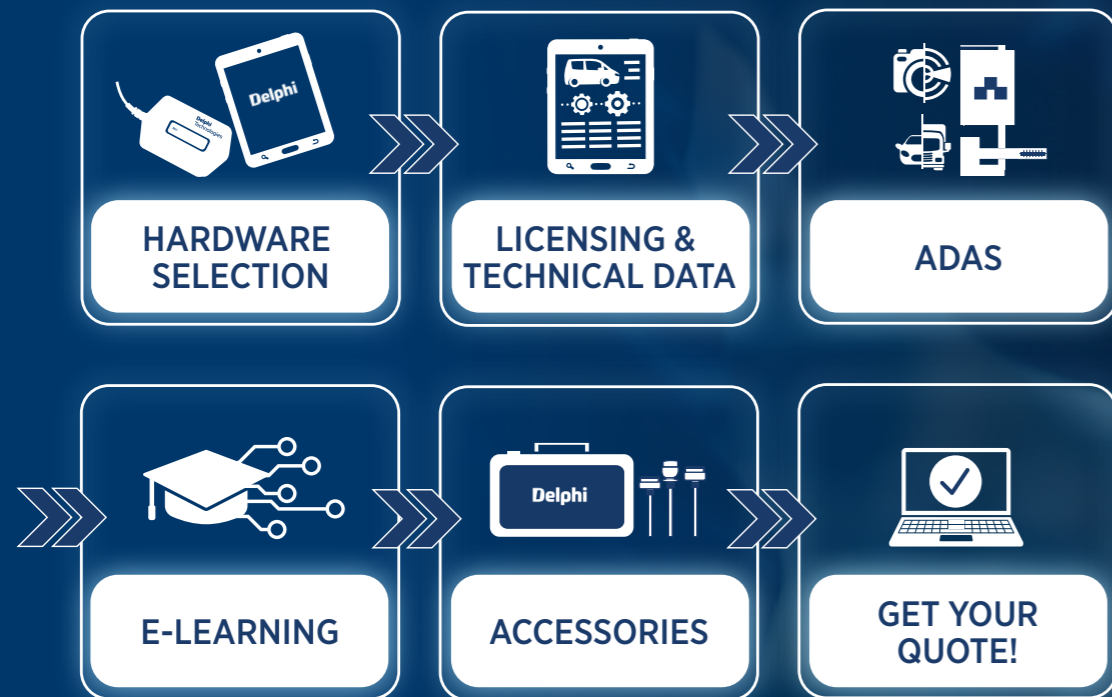

whatever your requirement, we've got it covered

Delphi's multi-brand, modular Advanced Driver Assistance Systems (ADAS) equipment and DS diagnostic software with integrated OEM procedures delivers garages a cost effective, flexible and accurate route into ADAS servicing.

BUILDING YOUR DIAGNOSTIC PACKAGE WITH DELPHI COULDN'T BE EASIER

With just a few clicks you can **design your perfect diagnostics solution**, from **hardware** to **software** and everything in between, with the new **Delphi Configurator**. Whether it's **parts, tools, support** or **training... we've got your back!**

**BUILD YOUR PERFECT DIAGNOSTICS PACKAGE NOW!
VISIT THE DELPHI CONFIGURATOR**

Enhanced cross-reference database:
Offers technicians quick access to alternative part numbers, ensuring precise and efficient selection

360-degree images for part identification:
Enables technicians to visually inspect parts from all angles, minimizing the risk of errors and returns

Premier Data Supplier with TecDoc®:
Delphi proudly holds premier data supplier status with TecAlliance, Europe's leading aftermarket parts catalogue provider

Online Delphi catalogue:
Hosted directly on the Delphi website, it provides technicians with seamless access to the full range of parts, enabling efficient browsing and selection without additional tools

Multi-region registration lookup:
Facilitates technicians in finding detailed part information based on vehicle registration, ensuring accurate identification

WORKSHOP SOLUTIONS CATALOGUING

Why do technicians need a feature-rich and comprehensive parts catalogue?

Parts selection is a critical step in the **repair process**, essential for **ensuring quality work**. The effectiveness of a catalogue can significantly influence the success of this initial step. Technicians must find the **correct part for first-time repairs**, or **replacements**, often under tight time constraints.

At **Delphi**, we understand the **unique challenges** that technicians face. Our catalogue assists with **accurate parts selection** and **connects mechanics** with the **data** and **resources** needed to **support installation** and **repair**.

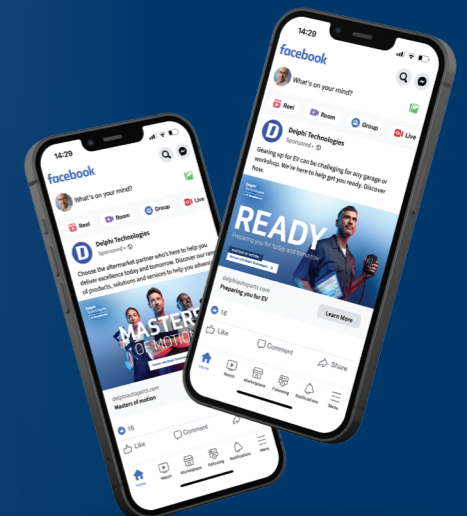

HOW-TO VIDEOS & TECHNICAL ARTICLES FOR TECHNICIANS, BY TECHNICIANS

YOU ASKED. WE DELIVERED.

At Delphi, we recognize the **challenges technicians face** when tackling **complex vehicle issues**. To support you, we've launched our **Masters of Motion program**, a **comprehensive resource designed by technicians, for technicians**. Every **Thursday**, we release **new how-to videos** that provide **quick, accurate, and practical solutions** to common automotive problems. These videos cover a wide range of topics, from **EGR valve replacements** to working on **Tesla Model S components**, all explained **clearly and concisely** to help you **enhance your skills**.

In addition to our **video series**, we also **publish in-depth technical articles** every **Monday**. These articles offer **valuable insights** and **detailed guidance** on various automotive topics, ensuring you always have the information you need to **stay ahead** in the industry.

What sets **Masters of Motion** apart is its **focus on real-world application**. Our content is crafted to address the specific challenges you encounter in the workshop, providing **actionable solutions** that you can immediately put into practice.

READY TO ELEVATE YOUR EXPERTISE? **VISIT OUR MASTERS OF MOTION HUB TODAY AND TAKE THE NEXT STEP IN BECOMING A TRUE MASTER OF MOTION!**

WORKSHOP SOLUTIONS TECHNICAL DATA

Delphi VTI (Vehicle Technical Information) is a powerful platform which is available as either a **standalone package**, or one that integrates directly into your **DS diagnostic tool**. It is available for **CAR (Car, Light Commercial)**, and **HEAVY DUTY (Truck, trailer)**. Empower technicians to execute repairs with **confidence** and **precision**, **reducing downtime** and **elevating service quality**.

CAR

BASIC

- Service schedule sheets
- Basic repair manuals
- Cambelt/timing chain procedures
- Lubricants and fluids data
- OE recalls

CAR

ULTIMATE

- Includes all **basic** pack features
- Wiring diagrams
- Guided diagnostics
- TSB's and known fixes
- Technical drawings & torque figures
- 2 x additional logins for use on other computers

TRUCK

PROFESSIONAL

- Service Reset
- Maintenance Schedules and Procedures
- Repair Manuals
- Adjustment Data
- Lubricants & Fluids
- Torque Settings
- Tyre Pressure Monitoring System

TRUCK

BUSINESS

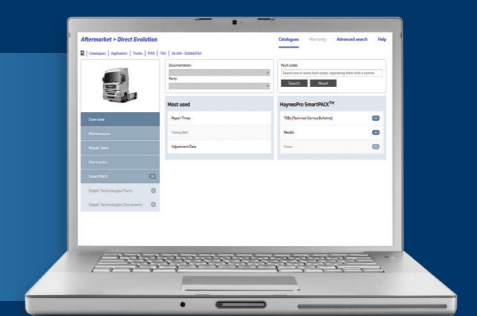

- Includes all **professional pack** features
- VESA (guided diagnostics of components)
- Component Testing
- Repair Times
- Wiring Diagrams.
- Electronic Procedures
- Fuses & Relay Locations
- Technical Drawings
- SmartFIX (Truck Recalls Only)
- Earth Point and ECU Locations
- OBD Socket Locator

TRUCK

ULTIMATE

- Includes all **professional & business pack** features
- Heavy Commercial Vehicles (HCVs)
- Light Commercial Vehicles (LCVs)
- 2 additional simultaneous sessions
- SmartFIX (Technical Bulletins)
- SmartCase (Verified fixes & tips)
